CYBERSECURITY IN MANUFACTURING

The San Diego & Imperial Counties Community Colleges, Society of Manufacturing Engineers, San Diego Chapter (SME 44) and East County Economic Development Council (ECEDC) invite you to join for us for a virtual session to learn from experts about the role of manufacturing engineering professionals in developing, implementing, and operating secure factories today and in the future!

The event program will include a dynamic keynote speaker from the Cybersecurity Manufacturing Innovation Institute (CyManII) followed by a panel of experts in cybersecurity and manufacturing.

When: Wednesday, October 13, 2021

Time: 5:00 - 6:30 pm (PT)

Where: Zoom Webinar 

Who may participate? industry professionals, 4-year university, community college and high school faculty, counselors, work-based learning coordinators, pathway coordinators, job placement case managers and **STUDENTS!**

Keynote Speaker

Howard Grimes
Chief Executive Officer
The Cybersecurity Manufacturing
Innovation Institute (CyManII)
